France Strikes ISIS Targets in Syria But Not In Paris

By JG

After Friday night's attack in Paris by Muslim Jihadis, French military airstrikes hit ISIS targets in Syria, yet they left the jihadi network inside of France intact.

For approximately forty minutes in Paris on Friday night, beginning at 9:20 p.m. local time, eight Muslim Jihadis conducted numerous assaults across the city. Explosions at the Stadium of France detonated during a soccer game. Gunmen also fired on two restaurants at Le Petit Cambodge, a bar at Le Bonne Biere, a restaurant at Le Belle Equipe, and at a concert hall at Bataclan.

One hundred twenty-nine people were killed and three hundred fifty-two were wounded. Seven of the eight Jihadis were killed. One of them, Abdeslam Salah, is still at large.

ISIS claimed responsibility for the attacks.

France's response was to strike ISIS targets outside of its own borders instead of destroying the massive and imminent Islamic threat inside of France.

There are at least forty-seven mosques within a ten-mile radius of downtown Paris. They teach that jihad is an obligation for all Muslims until Sharia is the law of the land and the global Islamic State (Caliphate) is established.

The Union of Islamic Organizations in France (UIOF) has significant influence in France and French leaders hear its voice. The UIOF is a Muslim Brotherhood organization whose stated objective is to destroy all un-Islamic governments and replace them with Islamic rule.

France, like many European nations, is being inundated with Muslims ("refugees") from numerous hostile countries who openly state they have no loyalty to France nor its laws. These countries support the implementation of Sharia and the establishment of the Caliphate.

French President Francois Hollande called the attacks in Paris "an act of war." Yet he has not called the slow invasion of his country by Muslims seeking to destroy France by all means possible an "act of war."

Airstrikes by the French military reportedly hit a command post, a jihadi recruiting center, a munition depot, and a jihadi training camp in Syria. The French military has not destroyed any such Islamic targets in France—yet those targets exist.

The German Interior Minister, Thomas de Maiziere, said "But I make the urgent plea, as interior minister and as a responsible politician of this country, that there shouldn't be any hasty links made to the refugee debate." Germany's leader Angela Merkel said she was "deeply shocked" by the attacks in Paris.

One has to ask what level of delusion these leaders live under. The global Islamic Movement has made it clear the reason for doing what it is doing (fighting jihad to establish a caliphate under Sharia) and the authority with which they do it (Islamic Doctrine). What exactly is shocking about what happened in Paris when viewed through the lens of Sharia? Nothing.

A small glimmer of light may be seen in [recent comments by Bernard Cazeneuve](#), the French Interior Minister, who has called for the dissolution of “mosques where hate is preached” in France.

For anyone paying attention, this is just the tip of the iceberg plowing over Europe. The Europeans are giving the Jihadis all the rope they (Jihadis) need to hang them (Europeans).

This book examines the historical, koranic, cultural, political and all-conquering character of many of the followers of Islam. It also exposes the strategic plan of the Muslim Brotherhood for the USA and the as yet unfulfilled obligations of Islamic States under the UN Charter, the Universal Declaration of Human Rights and, even, the very charter of the Organization of Islamic Conference and its fifty six member states. It concludes with a direct analogy and historical precedent to controlling radical Islam today as an all-encompassing way-of-life, namely the elimination of state Shintoism in Japan under the Potsdam Declaration of the Allies in 1945.

Barely into his twenties and already a highly decorated military hero, Army Special Forces veteran Blake Kershaw is now going to college, studying while recuperating from wounds received in Afghanistan, and planning to re-enter the Army as an officer after graduation. But life tosses Blake a curve when his country approaches him about using his special skills to avert a terrorist plot to detonate a nuclear device in a major eastern U.S. city. To do that, he would need to become an operative deep within Al-Qaeda's innermost circles—changing his entire identity, even his face. A true patriot, Blake makes the journey into a shadow world that leaves friends, family and, seemingly, even God far behind. But when things go terribly wrong, and his country looks set to destroy him, it is God and God's people who intervene.
